

Round Sticks

Plastek Round Sticks come in both push up and propel/repel types. Available in a variety of standard fill weights, with fitted screw caps. These top-fill sticks have proved to be well suited not only for deodorants, but also for a large variety of other solid-type products.

Plastek assures its customers of top-quality products with the most advanced, fully automated injection molding equipment capable of meeting the most exacting tolerances. Our TQC program is fully integrated into the manufacturing process, further ensuring quality in the finished product. The bottom line: a top-quality product at a competitive price, plus dependable delivery. Plastek Round Sticks come in both push up and propel/repel types.
