Welcome to Plastek

World Class Suppliers of Plastic Components to the Packaging Industry

www.plastekuk.com

Plastek UK Ltd (Europe) is a leading manufacturer of custom injection and blow moulded components for the packaging industry, offering creative packaging solutions to multinational FMCG businesses in the personal care, pharmaceutical, household, and food and beverage markets.

MOULDING

Plastek's UK facility is a highly advanced, purpose-built plant, entirely geared to the needs of high volume users, and features:

- Secure 50 ton material silos
- A state of the art controlled rotary valve material delivery system
- A climate-controlled manufacturing environment with additional clean-room injection moulding for Food and Pharma products
- A comprehensive range of Injection and Injection Blow Moulding machines
- Integrated MRP resource planning
- In-process quality control which is active, not reactive

ASSEMBLY

- Automated high speed assembly
- Cellular manufacturing
- Hand Assembly
- Quality management via auto-inspection
- Temperature-controlled environment

QUALITY

Total Quality Management built into all stages of the process from design and tooling to manufacturing and logistics allowing full traceability from raw materials to moulding, assembly and packing.

Plastek's clients include the owners of the world's most famous brands. They value our ability to innovate and supply bespoke components in high volumes, at agreed quality levels, with class-leading levels of quality and consistency.

Ideally located to serve the European marketplace, Plastek UK Ltd (Europe) provides a total packaging solution including design, tool build, and project management.

Based in Mansfield, North Nottinghamshire, Plastek UK Ltd (Europe) is a division of the USA based Plastek Group, a renowned World Class Manufacturer with extensive operations in North and South America.
